# THE FEDERATION ORGANISES, PROMOTES AND SANCTIONS

The International Federation of Teqball - FITEQ - based in Switzerland, has been established to unite the international teqball community, a sport incorporating a highly engineered Teq table over which a football is played. The FITEQ's objective is to promote the development of teqball globally, assisting in establishing national federations, and to unify the rules of teqball. The federation will organise, promote and sanction international teqball events and competitions including Teqball World Championships as well as establishing and maintain world ranking statistics.

## GABOR BORSANYI

Gabor is the creative force of the Teq team. He is a former professional football player, who retired at a young age. Sport has always been his passion and he came up with the idea of Teqball.

## GYURI GATTYAN

Gyuri is an international businessman, who is responsible for the Teq business strategy. He is the founder and owner of Docler Holding, but he is also known for being a producer and the benefactor of several charities.

## VIKTOR HUSZAR

Viktor is the scientific mind in the Teq team. He is a football-loving computer scientist, who puts the engineering resources behind the Teqball & Teqbox project. He is the president of the Football Club of the Budapest University of Technology & Economics.

# THE ORIGINS

OF

# TEQBALL

*Ronaldinho*

"I WISH TO GOD THAT TEQBALL BECOMES AN OLYMPIC SPORT, SO I COULD WIN A GOLD AT THE OLYMPIC GAMES."

BRAZILIAN FOOTBALL LEGEND

**TEQBALL HAS ALREADY STARTED CONQUERING THE WORLD. TEQBALL HAS HAD TWO WORLD CHAMPIONSHIPS AND ALSO HAS BEEN RECOGNISED BY THE OLYMPIC COUNCIL OF ASIA AND THE ASSOCIATION OF NATIONAL OLYMPIC COMMITTEES OF AFRICA AS AN OFFICIAL SPORT.**

Teqball is a football-based sport played on a unique but very simple equipment with a regular football. Because of the curved table, the ball always bounces towards the players. This makes the game continuous and enjoyable for any age groups, genders and people with different technical abilities. Although Teqball is really simple, it has many advantages for every football player. It develops technical abilities with the ball, the aerobic capacity, the coordination and many more cognitive abilities in a healthy, competitive environment.

“THE SPECIAL THING IS THAT WE HAVE CREATED A SPORT WHICH IS FOR EVERYBODY. AND YOU CAN PLAY IT ANYWHERE AT ANY TIME.”

MARIUS VIZER JR.  
GENERAL SECRETARY

# IDEAL FOR

FOOTBALL CLUBS & YOUTH ACADEMIES

The soul of teqball is the table; a new and revolutionary piece of sports equipment which took over two years’ testing and research to eventually develop its final innovative and sophisticated shape. The net is solid plexi and thus the ball bounces back from it, so the concept of uninterrupted games is no longer a dream.

The structure of the Teq table, aligned with the rules, does not allow luck or chance to interfere with the game: players can only rely on their skills and abilities.

# THE MAIN RULES OF TEQBALL

Teqball is the purest type of football-based games as there is no physical contact between the players at all. Because of this special condition, Teqball is a great supplementary tool for aerobic trainings, recovery and pre-season sessions.

Moreover, the unique rules and regulations of the sport of teqball requires more thinking from the players as they need to pay attention to the following rules as well:

- Q A teqball match consists of a best-of-three sets
- Q Each set is played until a player/team reaches 20 points
- Q Every player/team has two attempts to complete a successful service
- Q The players/teams change service after each four points
- Q It is forbidden to touch the ball with the same body part twice consecutively
- Q Every player/team is allowed to return the ball with a maximum of 3 touches by any body part, except for the hands and arms
- Q In doubles, a team has a maximum of 3 touches, however, the teammates must pass the ball at least once to each other
- Q While playing, neither the table nor the opponent can be touched
- Q In case of an edgeball, the rally shall be repeated
